SUMMARY

SOC/MDR Analyst experienced in investigating endpoint, identity, cloud, email, and network incidents across a high-volume multi-customer environment. Skilled in correlating SIEM, EDR, SaaS, identity, and network telemetry to determine scope, root cause, impact, and remediation, with hands-on involvement in detection tuning and exclusion analysis.

EXPERIENCE

SOC / MDR Analyst — QMasters

2024 — Present

Israel

- Investigate and respond to endpoint, identity, cloud, email, and network security incidents in a high-volume SOC/MDR environment supporting more than 70 customer environments.
- Perform log-based investigations across Microsoft Sentinel, Defender for Endpoint, Entra ID, Microsoft 365, CrowdStrike Falcon, QRadar, SentinelOne, Netskope, Zscaler, Cato Networks, and firewalls.
- Coordinate investigations and remediation with customers, security, IT, and system owners while maintaining clear findings, timelines, actions, and escalation records.
- Investigate authentication and identity-related incidents involving Microsoft Entra ID, Okta, Active Directory, Kerberos activity, MFA behavior, and suspicious sign-in patterns.
- Independently prioritize investigations according to severity, business impact, available evidence, and SLA requirements.
- Investigate security alerts, analyze false-positive patterns, assess exclusion risk, and recommend narrowly scoped detection-rule tuning to customers and integration teams.

NOC Engineer — Ness Technologies

2023 — 2024

Israel

- Monitored enterprise infrastructure and network availability.
- Worked with PRTG, VMware, CheckMK, and enterprise monitoring platforms.

EDUCATION

B.Sc. Information Systems

2021 — 2024

The Academic College of Tel Aviv-Yafo — Cyber Security Specialization

CERTIFICATIONS

- Check Point Cybersecurity Collaborative Challenge
- NX-212 Windows Forensics — Network Intelligence

PROJECT

ObserveAgents — AI Agent Runtime Intelligence Platform

May 2026 — Present

Built an AI agent runtime intelligence platform that ingests OpenTelemetry/SDK events, maps agent dependencies and tools, and applies detection rules to identify risky behavior and failed workflows.

SKILLS

Security Operations: Incident Response, Threat Hunting, Alert Triage, Root Cause Analysis, Detection Tuning, Exclusion Risk Assessment

Security Platforms: Microsoft Sentinel, QRadar, CrowdStrike Falcon, Defender for Endpoint, SentinelOne, Cortex XDR, Entra ID, Okta

Cloud, SASE and AI: AWS CloudTrail, Azure Activity Logs, Cato, Netskope, Zscaler, Python, SQL, Regex, REST APIs, OpenTelemetry, RAG, MCP

MILITARY SERVICE

Israel Defense Forces (IDF)

Operations Officer / Shift Supervisor / Air Defense Combat Soldier

- Managed operational activities and personnel in a mission-critical environment.
- Developed leadership, decision-making, and problem-solving skills under pressure.
